Report**

**An Educational visit to the Institute of Microbial Technology (IMTECH), Chandigarh**

**November 13, 2025 (Thursday)**

The Internal Quality Assurance Cell (IQAC), in collaboration with the Science & Technology Club and the Faculty of Science & Technology (FST), organized an educational visit on 13th November 2025. A total of 40 students from the B.Sc. Medical, B.Sc. Non-Medical, and M.Sc. Chemistry programs visited the Institute of Microbial Technology (IMTECH) in Chandigarh, accompanied by Dr. R. K. Bhardwaj, Head of the Department (FST), Dr. Sangeeta Bhogal, Dr. Ankit Verma, Ms. Rachna Devi, Ms. Yogesh Kumari, and Ms. Charu Sharma. The visit aimed to expose students to advanced research in microbiology, biotechnology, and chemistry. IMTECH, a premier institute under the Council of Scientific & Industrial Research (CSIR), is renowned for its pioneering work in microbial technology and health sciences. During the visit, students were introduced to various research areas, including antibiotic production, vaccine development, and bioremediation. They toured the research laboratories and observed advanced techniques used in microbial research and chemical analysis. Interactive sessions with scientists provided valuable insights into current challenges and innovations in biotechnology, inspiring students to consider careers in scientific research. The visit also included hands-on workshops demonstrating the practical applications of chemical and biological research. Overall, the educational tour proved to be an enriching experience, broadening students' knowledge and motivating them to pursue further studies and careers in scientific research.
