Workshop Report 1M1B AI + Sustainability Program

Date: 19th February, 2026

Venue: The ICFAI University, Himachal Pradesh

Organized by: Skill Development and Industrial Connect committee and Science & Technology Club in collaboration with IQAC

Introduction

The Skill Development and Industrial Connect committee and Science & Technology Club of The ICFAI University, Himachal Pradesh successfully organized the 1M1B AI + Sustainability Program Workshop on 19th February, 2026. The program was conducted in collaboration with 1M1B (1 Million for 1 Billion) and in partnership with EY. The workshop aimed to equip students with practical knowledge of Artificial Intelligence (AI) while emphasizing its role in addressing sustainability challenges.

Objectives of the Workshop

- To introduce students to real-world applications of Artificial Intelligence.
- To promote innovative thinking toward sustainable development.
- To provide industry exposure through collaboration with global organizations.
- To enhance employability through certifications and internship opportunities.

Workshop Highlights

- Hands-on AI learning sessions and practical demonstrations.
- Sustainability-focused problem-solving activities.
- Expert guidance from industry professionals.
- Certification opportunities from EY.

Participation and Engagement

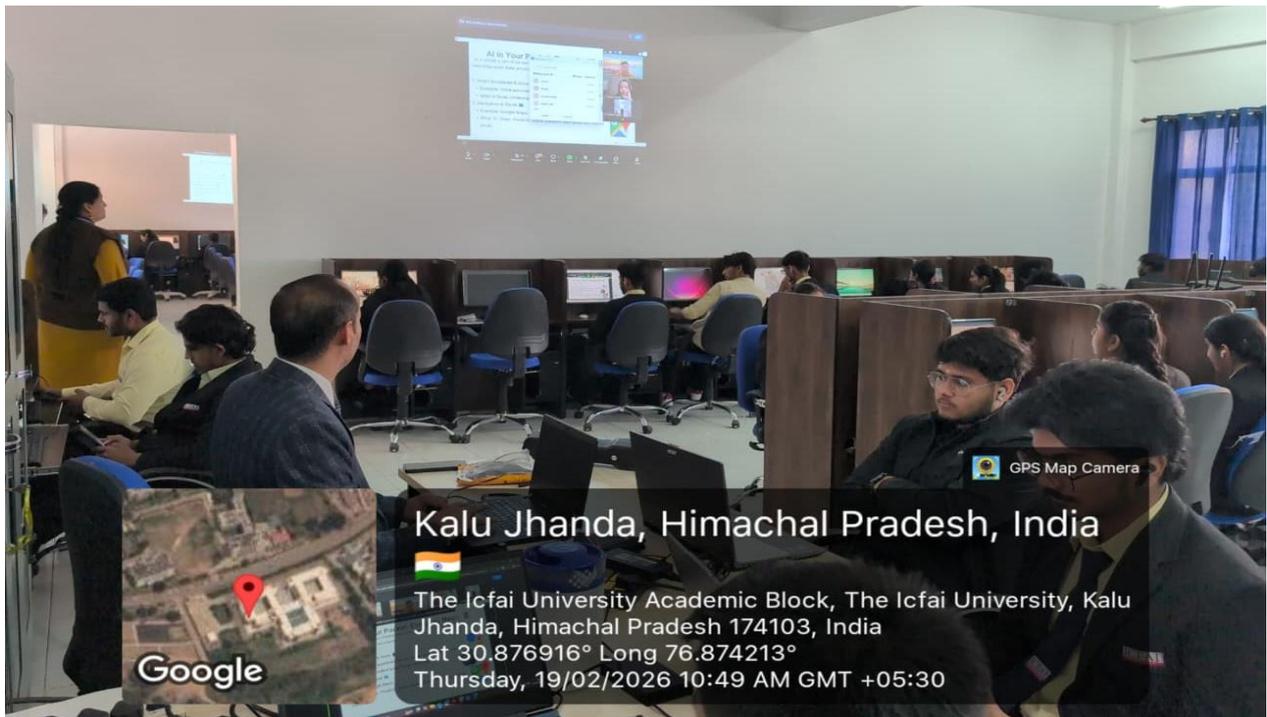

The workshop witnessed enthusiastic participation from 103 students belonging to B.Tech, BCA, B.Sc. (Medical), and B.Sc. (Non-Medical) programs. Participants actively engaged in discussions, collaborative tasks, and interactive learning modules. The hands-on sessions allowed students to explore AI tools and understand how technology can be leveraged to create sustainable and scalable solutions for real-world challenges.

Outcomes of the Workshop

- Enhanced understanding of AI applications in sustainability.
- Increased awareness of emerging career opportunities in AI-driven industries.
- Industry-recognized certification pathways for students.
- Strengthened industry-academia collaboration.
- Motivation among students to participate in internships and hackathons.

Conclusion

The 1M1B AI + Sustainability Program Workshop proved to be a highly impactful and enriching initiative. It successfully bridged the gap between academic learning and industry requirements by providing practical exposure and future-ready skills. The Skill Development and Industrial Connect committee and Science & Technology Club expresses sincere gratitude to 1M1B, EY, IQAC, faculty members, and all participants for contributing to the success of the workshop.
